Cat Adoption Locations

EDITOR: LILY CHAN

Dear Friend:

Happy Halloween. July to September is always the busiest period for cat rescues. Numerous reports on outdoor moms and kittens and orphaned kittens were received. Thanks to our dedicated volunteers, we trapped many of these homeless cats and kittens. They were placed in foster homes till the kittens were ready for adoption, and the mothers were spayed after nursing. We hosted a number of Kitten Adoption Weekends over the past few months and found adoptive homes for many kittens. There are many happy Adoptive Families as can be seen on Page 7.

As we enter the last quarter of 2023, we will be very busy with organizing two big fundraisers. There will be an ONLINE AUCTION from November 8th to November 30th. Over 200 items will be available for bidding. In late November and early December, we will also host 4 events of PICTURE TAKING WITH SANTA to be held at the 2 locations of SHERIDAN NURSERIES. Please support PARS with your participation.

Lily Chan
President

RESCUE JOURNAL

BABY & her last 3 months

We took in Baby in late May when her owner had to move out of country. We then arranged for her to be spayed as her owner did not do that. We were sad to learn from our vet that they found several mammary tumours during the spay surgery of Baby. Unfortunately these mammary tumours are usually malignant. Despite the diagnosis, Baby seemed to be doing fine and no symptoms were exhibited. We of course could not put her up for adoption.

Thanks to Bonnie our dedicated Foster Mom who opened up her home for Baby.

In the following month Baby was still eating, drinking and pooping. She was a very friendly and social cat that liked to engage in self play. She had met the cats of Bonnie through the fireplace screen. She was greeted with howls and kisses, but Baby just kept meowing happily!

As time went on Baby's breathing was getting wheezy, and the tumours were getting bigger. She went downhill fast and we had to put her to sleep on August 27 to end her suffering.

While we were sad about this, we were grateful that in her 3 months with us she was very loved and taken great care of.

"I renamed my spare room after Baby and her picture was hung in the room. It will always be her room. I wanted Baby to feel her life mattered and that she was loved and cherished everyday. I was committed to go on this journey with her and was right by her side when she passed. She was sweet, friendly and a fighter to the end. She lives forever in my heart and I was blessed to know her. All female cats and dogs should be spayed early to drastically reduce the risk of mammary gland cancer" - BONNIE

LEO the little ONE-EYED TROOPER

LITTLE LEO is a surviving kitten from a litter of 3 outdoors that was moved. The mother did not nurse them regularly. When Leo came to us, he was only about 2 weeks old and had puss in both eyes. One of his eyes was very bad and had actually ruptured and LEO lost his right eye. Thanks to the ongoing care of his Foster Mom Donna, and Dr. Bansal, one of our caring Vets, Leo's other eye has been saved and is clearing more each day.

Leo has a ferocious will to survive and is the sweetest, most easy-going, playful kitten. He was adopted to a loving home when he was about 8 weeks old. The family also actually adopted Nelly (also a tabby kitten), from PARS in 2020, so Leo now has a big sister!

LUNA the RETURNED DOG

IT TAKES THE RIGHT HOME!

LINDA aka LUNA was adopted from PARS. Sadly, 3 years later, she had to be returned. The reason was that she had started to attack smaller dogs on walks. We found LUNA a foster home who was informed of her misbehaviour. We were relieved when we received an update from Cheska, her then Foster mom:

"LUNA has Been doing really well on walks. We are using a harness and a thick leash. She doesn't pull unless she sees a rabbit or squirrel. Other than those times she walks right beside me at my pace. I've noticed that Luna hasn't been reacting to small dogs. We've passed a couple of small dogs in our walks but Luna doesn't react. She's been really well-behaved. One time there was a cat in front of us she didn't react. We crossed the road but she didn't care about the cat. Luna is the perfect dog. She's very chill."

It goes without saying that LUNA is now adopted by her foster family!

"We LOVE Luna. There's no way we'll return her. She's part of our family now." - CHESKA

MYLA the BASEMENT DOG

MYLA is a delightful and vivacious girl. She is about 4 yrs old. Sadly, for the past few months, she had been going through a difficult time of her life.

Her young owner of 3 years was recently arrested and Myla was left with her owner's mother. Unfortunately, the Mother lived on her own and was working 2 jobs; she just had no time for Myla. For more than 2 months, Myla had been staying in the basement and was taken out twice daily for just 10 minutes for relief.

The mother knew this was not a "healthy" situation for Myla. She asked PARS to help Myla find a loving home that could attend to her needs as a young dog.

We were happy that MYLA went to a loving foster home about a month ago and has been settling well. She was just so thankful she's no longer a Basement Dog!

KITTEN ADOPTION WEEKENDS

During the summer months, PARS rescued a lot of kittens. Many KITTEN ADOPTION WEEKENDS were held at several of our cat adoption locations in order to find them adoptive homes.

GLOBAL PET FOODS
8255 Financial Drive Brampton

PET VALU CLARKSON
950 Southdown Rd, Mississauga

PET VALU OAKVILLE
1923 Ironoak Way, Oakville., Oakville.

Left to their own devices, these outdoor cats are trapped in an endless cycle of breeding and scavenging for food, resulting in explosion of their numbers. Stray cats produce 80% of the kittens that end up in shelters.

We are glad that PARS has made a DIFFERENCE in reducing the overpopulation of stray cats in the Peel region.
